WHY TOYO-G MOTORCYCLE LUBRICANT?

Toyo-G is a manufacturer of industrial chemicals specialized in wear protection, corrosion prevention, friction control and heat resistance. Engine oil plays a vital part in keeping your motorcycle engine running in a good condition. A high-quality engine oil can extend the engine's lifetime and maximize its performance. As a specialist in industrial chemicals, our engine oil has incorporated our long-standing experience in liquid engineering. Your motorcycle engine running in optimum condition is our priority. Our engine oil is designed to protect your engine throughout its life cycle in accordance with the recommendation of the manufacturers and the various international standards such as API, ACEA, JASO which set limits on emissions and engine oil performance requirements.

TOP RANGE SERIES

TOYO-G TOP RANGE (with super speed performance additives) is a super high performance and high speed racing engine oil that formulated from high quality synthetic base lubricant and special additives to ensure optimum lubricating performance.

TOYO-G TOP RANGE series are specially designed to preserve better & smoother power output so as to provide maximum performance in motorsport. It has been fortified with premium anti-wear additive to give better protection especially to the flat tappet cams and push rods etc. Heavy load appears when high RPM engines running in the field and hence **TOYO-G** has specially designed a high performance friction modifier when develop **TOYO-G TOP RANGE** series.

Most suitable for racing motorbikes with super high speed engines.

Encompasses Toyo-G's 'no compromise' philosophy. Adopted with our most sophisticated production supervision, advanced blending tech, stringent quality control and elite chemistry selection. Crafted by the best to serve for the best, good luck and enjoy.

4 STROKE ENGINE OIL

TOYO-G TOP RANGE 5W-60

PACKAGING CAPACITY

PART NUMBER

- Better protection during high revs
- Maximum power output
- Smoother gear shifting and strengthen engine performance
- Thermally stable detergent system for enhanced engine cleanliness and better catalyst durability
- Better clutch friction durability
- Additive with booster components which provide better protection for engine, clutch and gear lubrication
- With JASO MA2 technology, it provides a satisfactory clutch performance
- Built-in corrosion resistance

Bottle 1L (12 pcs/Box)	8696L-0734
Bottle 4L (4 pcs/Box)	8696L-0801
Pail 18L	8696L-1021
Drum 209L	8696L-0379

100% SYNTHETIC ESTER+PAO

SPECIFICATIONS & PERFORMANCE:

- API SN
- JASO MA, MA2

4 STROKE ENGINE OIL

TOYO-G TOP RANGE 10W-50

PACKAGING CAPACITY

PART NUMBER

- Better protection during high revs
- Maximum power output
- Smoother engine performance
- Thermally stable detergent system for enhanced engine cleanliness and better catalyst durability
- Better clutch friction durability
- Able to provide better protection for engine, clutch and gear lubrication
- With JASO MA2 technology, it provides a satisfactory clutch performance
- Built-in corrosion resistance

Bottle 1L (12 pcs/Box)	8696L-0735
Bottle 4L (4 pcs/Box)	8696L-0966
Pail 18L	8696L-1116

4 STROKE ENGINE OIL

TOYO-G V-TWIN 60

PACKAGING CAPACITY

PART NUMBER

TOYO-G VTWIN is a premium synthetic blend with ester specifically made for V-Twin Engines, Chainscases and Transmission applications. With premium technology, it is well suited for cold start during winter and is resistant to high heat during engine idling especially in the heavy traffic. With genuine grade additives, TOYO-G VTWIN is able to ensure your V-Twin engine is continuously protected in the most extreme riding conditions, particularly suitable for high-way riders performing long journey.

JASO MB

4 STROKE ENGINE OIL

TOYO-G SCOOTER 5W-40 MB

PACKAGING CAPACITY

PART NUMBER

TOYO-G SCOOTER 5W-40 MB is a high grade, multilevel synthetic engine oil (with ester) specially developed for all scooter types that are running in automatic transmission (without clutches) and four stroke systems that are trending in low emissions. It contains with JASO MB performance to ensure engine is being well protected for daily commuting and urban ridding. It provides excellent protection against oxidation and corrosion issues. In general, scooters will have higher RPMs than other motorcycles, together with TOYO-G selected additives, it gives smoother acceleration in an automatic transmission.

SPECIALTY GREASE

TOYO-G SHS Bearing GREASE

PACKAGING CAPACITY

PART NUMBER

This is a super high speed bearing grease with excellent oxidation stability and lubrication properties. Combining with Nano technology and low base oil viscosity it is especially for most high speed applications. It's tenacious structural stability reduces consumption service life. It consists of ester base oil and lithium complex soap, the molecular structure of the product helps minimize wear and boasts greater penetration and finer grease film.

Product Application

TOYO-G SHS WHEEL BEARING GREASE is recommended for applications in public transport, high speed motor bearings, high speed rolling bearing in spindles, textile spindles, exhaust fan bearings, electric motors and high and low speed small bearings. TOP RANGE SHS R+ is also has low pour point and excellent low temperature torque. A ready use product for all kind of motorsport competitions.

Tub 120GM (12 pcs/Box) 8696G-0650

SYNTHETIC

Continuous lubrication temperatures:

-45.6 °C / -22 °F to 182 °C / 350 °F

AEROSOL LUBRICANT

TOYO-G BUFF & SHINE ↗

PACKAGING CAPACITY

PART NUMBER

Extra Silicone fluid specially make for bike enthusiast, a can which can easily make your bike more attractive. Buff & shine all day, regardless of the weather.

Product Application

Rubber, plastic and leather. Always test on an inconspicuous area first.

Direction for use

Shake well before use. Spray on, polish with dry cloth to achieve high gloss effect. Strongly advise to wash and clean your bike prior to apply this product. Make sure the surface is in dry condition before apply this product.

Bottle 600ML (12 pcs/Box) 8696S-0014

APPEARANCE: LIQUID
PROPELLANT: HYDROCARBON
PRODUCT APPLICATION:
Ideal for use to reduced cracking or splitting of Rubber seal, rubber belt, plastic component, leather treatment, cables, pulleys, guide rails, sliding doors and more.

BRAKE CALIPER GREASE

TOYO-G CHAIN GREASE ↗

PACKAGING CAPACITY

PART NUMBER

Long last chain grease specially developed to offer best protection for motorcycle chain. High pressure resistance to reduce continuous friction between metal-to-metal surface.

Product Application

Specially developed for all types of motorbike chain including "O" and "X" ring types.

Direction for use

Shake well before use. Spray on, allow to penetrate, simple rotation of the chain as require when apply. Strongly advise that the chain is clean with TOYO-G POWERFUL PARTS CLEANER prior to apply.

Bottle 600ML (12 pcs/Box) 8696S-0013

Operating Temp.: -36°C to 224°C

Color: Golden Brown

NLGI Grade: 0

⊗ Non-Fling Type

⊗ Excellent Water Resistant

SPECIALTY GREASE

TOYO-G DRY CHAIN PASTE

PACKAGING CAPACITY

PART NUMBER

This is a super high speed chain paste with excellent rust prevention and lubrication properties which proven that unstoppable performance output during competition. It presents outstanding white colour paste and adhesiveness texture especially for most high speed chain applications. Added with extreme pressure additives, it reduces friction and able to increase chain durability.

Product Application

TOYO-G DRY CHAIN PASTE is recommended for all type of chains (Standard, O-Ring, X-Ring and Z-Ring). It is suitable for use in all type of motorbikes and go-karts.

A ready use product for all kind of motorsport competitions.

Tube 120GM (12 pcs/Box) 8696G-0651

GEAR OIL

TOYO-G GO 75W-90 FS

PACKAGING CAPACITY

PART NUMBER

TOYO-G (LSD R+) Limited Slip Differential Racing Plus Gear and Axle Oil. A super high performance, multipurpose, thermally stable gear lubricant which are formulated from the combination of dual high quality pure synthetic and ester base stocks. With advanced additives package to meet the latest specifications for today's high performance and high speed automobiles applications. It provides excellent protection against rust and corrosion, wear resistance, oxidation, good thermal stability and able to offer excellent lubrication under extreme conditions. These special technology additive package suspends sludge and deposits in the gear oil, reduces foaming, extend gear equipment life and prolonged oil service life.

AEROSOL CLEANER

TOYO-G POWERFULL PARTS CLEANER

PACKAGING CAPACITY

PART NUMBER

Ideal for use to dissolves and removes oil, grease, tar, brake fluid, dirt without leaving residue. Does not attack rubber, plastic or paint.

- Fast drying Brake & Parts cleaner that leave no residues
- Safe to use on all plastics, rubber, and metal
- Ease of application, just spray on the contact surface without wiping requirement

Bottle 600ML (12 pcs/Box) 8696S-0686

APPEARANCE: CLEAR LIQUID
PROPELLANT: CO2
PRODUCT APPLICATION:
Brake, automotive parts, industrial parts & tools.

AEROSOL CLEANER

TOYO-G DEGREASER

PACKAGING CAPACITY

PART NUMBER

It is a powerful degreaser that quickly remove grease, oil and dirt. Good penetrating ability, easy to rinse and leaves no residue. This water soluble powerful degreaser is safe to use on most surfaces like aluminium, metals, plastic and rubber

- Fast acting cleaning solution
- Easy to rinse and leaves no residue
- Easy to removes grease, oil, dirt, sludges and grimy residues
- It is safe to use on most surfaces like aluminium, metals, plastics and is ideally for use on tools, engines, forklifts, chains, power equipment and rims etc.

Bottle 300ML (12 pcs/Box) 8696S-1124

APPEARANCE: LIQUID
PROPELLANT: HYDROCARBON
PRODUCT APPLICATION:
Power tools, works surface, industrial machinery, automotive parts & tools.

AEROSOL LUBRICANT

TOYO-G CHAIN LUBE

PACKAGING CAPACITY

PART NUMBER

Extremely high-pressure resistant and incredibly adhesive chain lube. Excellent waterproof performance and thermal stability. Suitable for use for all season.

- Excellent Penetrating Effect
- Excellent Rust and Corrosion Protection
- Good Adhesiveness and High Film Strength to Prevent Fling-Off
- Resistance to Shocks, impacts and Water Washout
- Reduces Wear, Friction and Heat
- Excellent Protection for Longer Lasting Chain Life.

Bottle 300ML (12 pcs/Box) 8696S-1166

APPEARANCE: LIQUID
PROPELLANT: HYDROCARBON
PRODUCT APPLICATION:
Specially designed for motorbike chains of motorbikes used on the road and particularly in races as well. It can also be used on heavy industrial machinery chain.

AEROSOL LUBRICANT

TOYO-G SILICONE LUBRICANT

PACKAGING CAPACITY

PART NUMBER

Lubricates, cleans, prolonged and protects all metal and non-metal material including plastic, rubber, and vinyl. It dries fast and leaves a clear coat on the surface.

- Safe to use on most Plastics, Rubber & leather
- Long term lubrication
- Excellent water resistant
- Translucent, Non Staining and won't attract dirt
- Suitable for applications subjected to a wide range of temperatures.

Bottle 300ML (12 pcs/Box) 8696S-1165

APPEARANCE: LIQUID
 PROPELLANT: HYDROCARBON
 PRODUCT APPLICATION:
 Ideal for use to reduced cracking or splitting of Rubber seal, rubber belt, plastic component, leather treatment, cables, pulleys, guide rails, sliding doors and more.

BRAKE & CLUTCH FLUID

TOYO-G DOT 4

PACKAGING CAPACITY

PART NUMBER

- Special formulation designed specifically for the ABS Braking Systems and most Hydraulic Clutch.
- Having great thermal stability
- Longer lifespan with 100% Fully synthetic formulation.
- It prevent sheer and undiluted water in the braking system.
- Features excellent corrosion protection for ferrous and non-ferrous metals.

Bottle 500ML (12 pcs/Box) 8696L-0256
 Bottle 1L (12 pcs/Box) 8696L-0945

FULLY SYNTHETIC
 MEET STANDARD: F.M.V.S.S No. 116.
 TYPICAL BOILING POINT: **DRY 250°C**
WET 170°C
 SPECIFICATION: SAE J 1703

BRAKE CALIPER GREASE

TOYO-G EAJ 168 BCG

PACKAGING CAPACITY

PART NUMBER

EAJ 168 BCG is a non-toxic and non-melting, pure synthetic brake caliper grease. It is compatible with most brake rubber and plastic parts, extend the life of your brake pads and calipers as well as prevent unwanted noise and vibration.

Tube 60GM (24 pcs/Box) 8696G-1289

- Plastic and rubber safe
- Resist moisture and water wash out
- Protection against corrosion
- Prevents sticking and uneven wear and reduces the chance of brake chatter

Operating Temp.: -36°C to 224°C
 Color: **Translucent Blue**
 NLGI Grade: **0**

INDUSTRIAL HAND CLEANER

TOYO-G DIRT-OFF

PACKAGING CAPACITY

PART NUMBER

TOYO-G DIRT-OFF industrial hand cleaner is a fast-acting easy rinse hand gel specially blend for industrial hand cleaning purpose, infused with natural micro mineral to scrub off tough dirt, grease, oil, ink, paint, glue, tile cements, gasket, epoxies, soils & grime etc. It is a petroleum solvent free thick hand gel contains no harsh chemicals that can sting cuts or abrasions and is fortified with plant based softening agent, coconut derived grease cutter, biodegradable surfactant, vegetable derived skin conditioners and natural citrus fragrance to deep clean and protect raw, rough hands.
 DIRECTIONS FOR USE
 Rub hand cleaner into dry hands until dirt or grease is dissolved, rinse with water.

Bottle 1KG (12 pcs/Box) 8696C-0181
 Bottle 4KG (4 pcs/Box) 8696C-0174
