Рекомендательное письмо

Рекомендуем масла серии TOYO-G STRENGTH SAE 5W-30, SAE 5W-40 использовать в двигателях автомобилей китайского производства таких марок как Cherry, Exeed, Omoda, Naval, Geely, Changan, JAC, GAC, Jaecoo, Kaiyi, Jetour и других. В случае, если руководство по эксплуатации автомобиля предписывает использование в данном регионе моторные масла вязкости SAE 5W-30 и 5W-40 со спецификацией API SP или API SN рекомендуем применять масла серии TOYO-G STRENGTH.

Subject: Recommendation for the Use of Toyo G Strength Oils

TOYO-G recommends the use of our Toyo G Strength SAE 5W-30 and SAE 5W-40 series of oils for your clients.

Based on our experience, we believe that these oils may be suitable for use in vehicles manufactured by Chinese brands such as Cherry, Omoda, Jaecoo, Kaiya, Changan, Exeed, and Jetour. Additionally, they may be appropriate for vehicles from other manufacturers, provided that the vehicle's operating manual allows for the use of SAE 5W-30 or SAE 5W-40 viscosity with API SP or API SN specifications under the specific conditions in your region.

Please note that while we offer this recommendation based on our extensive industry experience, we do not have direct support data from Original Equipment Manufacturers (OEMs). Therefore, we strongly advise you to verify the compatibility of these oils with your specific vehicle requirements as outlined in the manufacturer's operating manual.

Should you have any further questions or require additional information, please do not hesitate to contact us. We are here to assist you in making the best choices for your vehicle maintenance needs.

Thank you for your continued trust in our products.

Yours sincerely,

Bruce Choong, General Manager
TOYO GREASE MANUFACTURING (M) SDN BHD
